AI/ML DEVELOPER

Student Profile | B.Tech Computer Science and Engineering

Aspiring AI/ML developer building practical experience through predictive modeling projects.

EDUCATION

B.Tech in Computer Science and Engineering

Expected graduation: 2028

TECHNICAL SKILLS

Python | NumPy | Pandas | Machine Learning | Deep Learning | NLP | Generative AI

SELECTED PROJECTS

Diabetes Prediction

Exploring health indicators and diabetes risk prediction with machine learning.

Heart Disease Prediction

Predictive modeling project using health data to explore heart disease risk.

Mental Health Score Predictor

Exploring how data can help model and understand mental health scores.

CURRENTLY EXPLORING

Retrieval-Augmented Generation | Large Language Models | LangChain
